

ALEXANERIA VA. MONDAT VENIN SEPTEMBER 1.

GRESSMAN BROWNE, of the first V rala district, who has just been renominated by the republican convention of his district, in his speech of acceptance, said "the standard that had been placed in his hands represented republicanism, and that those who would vote for him would vote for the preservation of republicanism." If that be so Mr. Browne should receive the vote of no man who would promote the peace and prosperity and preserve the moral and material interests of the people of the South, those of his own district included; for republicanism now means enormous pension bills for northern soldiers, high taxes on the poor man's necessaries and exemption of the rich man's bonds, a high price for the produsts of the rich owners of the silver mines butilow prices for the farmers' products, subsidies to northern ship owners but taxes on southern tobacco planters, the ousting of fairly elected white congressmen from the South and the seating of negro contestants, the admission of rotten borough States because they are republican and the exclusion of States with the requisite population because they are democratic, and, worse than all, the Force bill, that would bring disorder and bloodshed upon the South, and paralyze every manual industry in every southern State. If a vote for Mr. Browne mears a vote for republicanism, those people of the first Virginia district, who have any interest in that district, will vote for Mr. Browne's democratic opponent, Mr. Jones, if they know on which side their bread is buttered.

ME. REED's district is not the only one in which Secretary Tracy is attempting to make a navy yard the means of electing a republican congressman, though in order to do so he has to violate a statute he has sworn to observe. There is no need for an increase in the force at the Norfolk navy yard, but it is being increased all the same. A tneusand men are now employed there, and that number is being enlarged daily. And, what may be of interest to those white workingmen who contemplate voting the republican ticket next November, a large proportion of the increase referred to is composed of negroes. Formerly a negro in a southern navy yard, except as a servant, was a ratily, but now many of the clerks and laborers employed at the Norfolk yard are black, though white men were applicants from their places.

THE PHILADELPHIA American, is alluding to the efforts the body politic of Mississippi, the people who support and maintain the moral and material interests of that State, are making to secure those interests by preserving them from the hands of the ignorant, vicious and pauper negro majority there, says the white republicans of the blacks came to be found in the State of Mis-North "remember how this great body of elssippi." Well, if they don't, other people Louiss. do. The latter remember that many of the negroes referred to are the descendants of those either brought to this country by northern slave ships, or sent South and sold by northern slave owners when they ceased to be profitable in the North. The American is a second Daniel come to jadgment.

WHILE TAXES for the expenses of the government should or questionably be laid upon luxuries, d'accetion should of course be used in their imposition. A picture by Rubens has been bought by an American, but, by the existing tariff, he will be compelled to pay a duty of \$4 600 before he can take it from the custom's house. Now, as under a government economically administered, a tax on the picture would not be needed, and as the tax does not protect American artists, none of whom even pretends to execute equal work, and as the pic ture might inspire American genius to attempt to rival its excellence, why the beavy tax on it should be laid, few intelli gent people can tell.

THE PARNELLITES have openly and putlicly announced their contempt for the Papal decree relating to politics. Mr. Parnell 13 also co-respondent in a divorce suit. Mr. Parnell also, though in receipt of immense sums of money from his admirers in in the Monntain Springs, Texas, neighborhis country, reduces his poor old mother to bood, a Baptist deacon went to the house of she necessity of appealing to the public for Mr. Soiby, a near neighbor, and finding all there was a final conference between Messrs. charity. After awhile the Irish Catholics the family absent but Mrs. Solby, threw his Aldrich and Allison on the one side, and who have been so lavish in their praises of arms about her waist, called her "dear sicthe Protestant Parnell will find out that who weighs about 200 pounds, jarked loose they have been sadly deceived in the character of their favorite.

New York Central Railroad increased the vented from beating him to death by the arprice of the meat easen by the thousands of poor people of New York city. An lejury to one may be the concern of all, but an itjury to all seems to be a matter of no corcern to a striker, even when as in the case referred to, the strike is neither for increased pay nor shorter; bours.

WARRINGTON, D. C., Sept. 1, 1890. Gen. Cadmus Wilcox, who is an explicant for the position of commissioner of the Dis-trict of Columbia, to fill the accency caused trict of Columbia, to fill the acency caused trict of Columbia, to fill the acency caused by the resignation of Ma Hine, is endorsed by the resignation of Ma and most reputable by many of the old and most reputable property owner of the Senate District republican committee; but as the President of Column or no use for ex-Confederates, it is has thought that the General will be suc-

ceesful. In the Senate te-day Mr. Barbour presented the report on the Cumberland and Washington Railroad bill, which he reported

During the investigation of the charges against Commissioner Raum by the special House committee to-day, it was developed that one of the republican members of that committee, a committee appointed, as is generally believed, by Mr. Speaker Reed, to acquit the accused, is a large stockholder in footpads, robbed of his money and his tongue the fraudulent company in which Raum is so much interested, and to which the charges against him refer. The member alinded to ie Mr. Smyser, an Ohio republican. The matter was subsequently brought to the at

tention of the House. The coast survey is supposed to be conducted under the civil service rules ; but as government expenses have to be cut down now in order to meet the expense of the pension bills and to pay the increased hands employed at navy vards to elect republican congressmen, the democrats in that tureau are being removed and having their pay reduced without regard to civil service, or, for that matter, any other sort of rules. Among the removals is that of a R chmond demcorat named Duesbury, and another Virginia democratic employee, named Glascock, has

The advent of Mr. Carlisle into the Senate was most opportune for the other democratic members of that body, for while they are perfectly competent to argue the tariff ques tion in the abstract, few of them are thoroughly posted regarding the particulars of the subject. He, on the contrary, is perfectly familiar with every aspect of the suband since the debate began there has been hardly a day on which he has not met some republican defender of some point of the bill and unborsed him.

The republican campaign committee is already commencing its assessments for the fall campaign. They are made in the shape of handsomely printed receipts for ten dollars with stubs attached, sent to every federal officeholder, each one of whom is expected to retain at least one, and send the money and the stub back, but the liberal can retain as many as they choose. A large batch has been sent to Alexandria.

Sepator Paddock of Nebraska to-lay followed in the wake of that other pronounced republican, Senator Plumb of Kansas, in an assault upon the high tariff bill, and the protection such a bill affords the rich owners of the manufactories at the expense of the poor ow ers of the farms.

The conference committee on the river and harbor bill has fixed the appropriation for Cape Charles City, Virginia, harbor at \$25 000. The Potomac river appropria ion was made \$280,000, of which \$20 000 is to be expended on the Eastern branch.

Congressman Venable, of Virginia, after a great deal of trouble, has succeeded in getting a bill through the House appropriating \$21,000 to the payment of Mare Davis of Petersourg, Virginia, for boads and stacks destroyed by the federal autherities at New Orleans during the war.

In the Senate to day Mr Sherman introduced a resolution for trade reciprocity with Canada. As Mr. Sherman is the chairman of the committee on foreign if ire, this looks like business. Surely if there be reciprocity with Central and South Amer-ica, for much stronger reasons there should be with Canada, with which trade is so much closer and as much stronger.

and so much greater.

The following changes in the 4th class postoffices of Virginia were made to-day: Locust Oreck, Louiss county, G. H. He Duggins appointed postmaster, vice Mary E. Bagby, decessed; Sugarland, Fauquier county, L. L. Kerns, vice F.

County Debts.

The following counties in Virginia bave no debte, either bonded or floating: Frederick, Shenandoah, Rappahannock, Prince Alliance in politics. Will aw, Fauquier, Culpeper, Orange, Madi Louise, Hanover, Goochland, Henrico, Chesterfield, Caarles City, New Kent, Prince George, Surry, Diawiddie, Isle of Wight, Nansemond, Princess Anne, Mecklenburg, Lucenburg, Nottoway, Amelia, Prince Ei-ward, Greenceville, Augusta, Nelson, Appomattor, Bedford, Craig, Giles, Pulaski, Floyd Carroll, Grayson, Wythe, Trzawell, Washington, Scott, Russell, Lee, Wise, Dickenson, mont's colt, won the third Futurity stake in Buchanan, Buckingham, Caroline.

Among counties which have debts are: \$1,000 and under \$5 000; Campbell, Stafford, and Clark each \$20 000 and under \$35 000; Page, \$75 000 and under \$100 000; Smyth, \$1,000 and under \$5 000; Bland, \$5 000 and under \$10 000; Sussex; \$35 000 and under \$50 000.

The characters are so indistinct as regards some of the other counties that It would be risky to state from the chart just what the Census Office people estimate the debts of the remaining counties in Virginia, but all of the following counties are indicated as having some debts; Albemarle, Charlotte, Southampton, Norfolk, Halifax, Pittsy!vania, Patrick, Franklin, Campbell, Am berst, Cumberland, Warren, and Powhatan.

None of the indebted, however, is as high as \$100,000 for any county, which is a very good showing. Indeed, few run as high as \$50 000, and they are counties that can probab'y meet the debts easily.
